**July 21, 2006**

(1) Modifications to Attorney Delinquent Collections Interface for Kendall County.

**July 13, 2006**

(1) They say the third time is the charm.

**July 12, 2006**

(1) One of the display panels in our screen library became lost. We have found it and replaced it.

**July 11, 2006**

(1) This update replaces the July 10<sup>th</sup> update, which was not built correctly, and so, was a duplicate of the June 26<sup>th</sup> update.

**July 10, 2006**

(1) More modifications to the Open Warrant report.

**June 26, 2006**

(1) This update adds two new state quarterly reporting lines to the civil section of the Money Distribution Report. This provides for a family protection fee and a judicial support fee.

**June 20, 2006**

- (1) Additional changes to the Docket Call Listing 2.
- (2) Additional changes to a report for the Deaf Smith County, District Clerk.

**June 19, 2006**

(1) A new "Citation CDL" report has been added to the report menu. It allows the user to print out a list of all citations where a CDL license is present. It also gives the user an option to print out the same report by all officers, officer type, or specific officer.

**June 15, 2006**

(1) Attorney delinquent collections activations for Kendall and Haskell counties.

**June 8, 2006**

- (1) More modifications to the Docket Call Listing programs that were introduced in the last two updates of June 5 and 6.

**June 6, 2006**

- (1) It seems there was a problem with the June 5<sup>th</sup> update. This update corrects that problem.

**June 5, 2006**

- (1) Some time back, we wrote a special version of the Docket Call Listing program for Deaf Smith County. Since then it appears that a good number of our customers have come across this report, tried it, and really like it. The problem is that the words "Deaf Smith" are coded into the program, and thus show up on the report. In response to numerous requests from our customers we have created a generic version of this program, and it is called "Docket Call Listing – 2".

**May 30, 2006**

- (1) Modifications to Officer Activity Report Version 1

**May 25, 2006**

- (1) Fix a problem that occurred with the use of the Fujitsu 5220c scanner when scanning in the pdf mode and duplexing mode.

**May 23, 2006**

- (1) Activation of image processing for JP #2 in Val Verde County

**May 22, 2006**

- (1) Defendant Cause Listing Report modifications
- (2) Cause Record Listing Report modifications
- (3) Both Docket Listing – Landscape Format Report modifications

**May 11, 2006**

- (1) We are now starting to get some courts that operate more than one court under the same file set. The primary Inquiry/Update program is prepared for this situation, but we have found that some of our report programs are not. This update includes six reports that have been enhanced to handle this situation, as coordinated with our customers who are involved in this situation.

**May 9, 2006**

- (1) Activation of Kenedy County for the Attorney Delinquent Collections Program.
- (2) Fixed a problem where inadvertently the name of an employer was showing up on the Complaint Inquiry/Update Screen, due to the fact that field was not being cleared and the name of the previous employer kept showing up.

**April 25, 2006**

- (1) Corrects a problem in the batch printing of a document based on an earlier printing of a different document. For example, the printing of a complaint letter based on the printing of a reminder letter 30 days earlier.

**April 21, 2006**

- (1) An addition was made to the "Merchant Cause Listing" report to include check related information on payments received.

**April 20, 2006**

- (1) Corrects a problem with the date exclusion function in the Status Listing Report

**April 19, 2006**

- (1) Fix corrupted screen panel in the "Defendant Cause Listing Docket Call" report program.

**April 12, 2006**

- (1) Special modifications to the court system that apply only to Blanco County and Uvalde County Justices of the Peace.

**April 10, 2006**

- (1) In the last update we missed one of the modules required to make the Hot Check Open Warrant Report work properly. This update includes that module and the report should now function correctly.

**April 6, 2006**

- (1) Modifications to Hot Check Open Warrant Report
- (2) Modification to DPS Report of Convictions so that codes 3800-3806, 3900-3906 & 3101 are not transmitted.
- (3) Modifications to OCA JP and Municipal monthly reports to fix some typo errors.
- (4) Added "Pending" and "Closed" options to "Defendant Cause Listing – Docket Call" report.

**March 28a, 2006**

- (1) We have obtained a new magnetic file from DPS with their latest set of offense code numbers. To make this new code set available for your use, you must first load the update. Next, log into your system as employee 998. Next you must go into the "DPS Failure to Appear Interface" program. Once in this program, press the (F4) key to import the new DPS code set into your database. This update affects all of our users that use the Omnibase program.
- (2) Kent County JP conversion program modification.

**March 28, 2006**

- (1) Addition of Fastrac International MCRS file conversion program.

**March 27, 2006**

- (1) Kenedy County Imaging Activation.
- (2) Kent County JP conversion program modifications.
- (3) Attorney delinquent collections activation for Medina and Blanco County.

**March 26, 2006**

- (1) Kent County JP conversion program modification.
